JB17.750FE Fire Equipment Cabinet

Typical use:

For the storage of 4-5 x complete sets of Firefighters clothing including SCBA. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

The cabinet comes with a hang rail, shelves and 4-5 x BA clips to store the equipment in an orderly fashion.

The interlocking doors feature a 316 Stainless steel L handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:

Dimensions (mm)

Height x width x depth: 2035 x 1395 x 750

Aperture: 1735H x 1155W

Internal depth: 675
