JB18 Equipment Drying Cabinet

Typical use:

For drying up to 20 x pairs of boots. This cabinet is widely used in the Offshore energy and marine sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

This cabinet is fitted with a 316 Stainless Steel warm-air drying unit supplied by Pronomar.

The door can be specified with left or right hinging and features a Stainless steel L handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:

Dimensions : Height x width x depth:	1831 x 1034 x 785 mm (72.1 x 40.7 x 30.9")
Aperture:	1583H x 812W mm (62.3 x 31.2")
Internal depth:	704 mm (27.7")
Weight :	80Kg (176Lb)

Material specification:

Colour:	White RAL9010
Material:	Lloyds approved composites with UV stabilised gelcoat
Hinges:	316 Stainless steel
3 way locking with Handle:	316 Stainless steel
Seal:	EPDM

Optional Extras:

Other RAL colours
