JB70 Knotted Rope Chest Type 2

Typical use:

For the storage of Knotted Rope. This chest is widely used in the Offshore energy and marine sectors.

Description:

These chests are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the lid aperture. The hinges and catches are secured with 316 stainless steel nuts, bolts and washers.

It has a small cut out on the right hand side for the rope and a polyamide handle on top for ease of opening.

Standard specification:

Dimensions (mm)

Height x width x depth: 610 x 490 x 550

Aperture: 381H x 401W

Internal depth: 381

Weight Kg: 10 Kg

Material specification:

Colour: Orange RAL2009

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless Steel

Lid Catch: 316 over centre catch (padlockable)

Handle: Polyamide

Seal: EPDM

Optional Extras:

Other RAL colours

Class 1 fire retardant composites

Manufactured in the UK
