SOS603 1 x Rescue line container

Shown with optional padlock but can be fitted with an anti-tamper seal instead

Typical use:

On Marina pontoons, riversides, estuaries, canals and lakes. It is designed around all the most popular weighted throwing lines on the market from the likes of Eval, Nookie, Survitec and Yak. This includes larger 8m lines as recommended by the RNLI.

For the storage of 1 x Rescue line

Description:

This robust throwing line container will provide excellent weather protection to the rescue line by preventing UV and water damage. It is very easy to operate with a drop down door to release the rescue line. The door can be fitted with an anti-tamper seal or a padlock to deter theft or vandalism.

It can be mounted to a wall, railings or a GRP post or sign board. The rail and post mounting kits are available as options.
