SOS603T Fire and LSA Safety Station

Typical use:

For use in Marinas, riversides, canals and lakes and can take all the popular weighted lines from the likes of Eval, Nookie, Survitec and Yak. This includes the 8mm types recommended by the RNLI.

For the storage of 1 x Rescue line and 1 x fire Extinguisher (up to 9Kg/litre). Rescue line and Fire extinguisher not included.

Description:

This robust safety station container will provide excellent weather protection to a rescue line and fire extinguisher by preventing UV and water damage. The Extinguisher cabinet is TUV tested to IP54.

It is very easy to operate with a drop down door to release the rescue line. The door can be fitted with an anti-tamper seal or a padlock to deter theft or vandalism. The Fire extinguisher cabinet also has a single catch for fast access as the facility for an anti-tamper seal as shown.
