Lifejacket and immersion suit Cabinet (JB17.600LJS)

Typical use:

For the storage of foam filled or automatic Lifejackets stored in bags as well as immersion suits. This cabinet is widely used in the Offshore energy and marine and Naval sectors.

Description:

These cabinets are manufactured using Lloyds approved composites including UV resistant gelcoats to provide long lasting protection for equipment stored inside in even the harshest environments. This is backed up with an excellent IP rating of 56. It has both Lloyds and ABS approvals.

The design ensures a high level of rigidity for the relatively low weight with a very effective EPDM seal around the door aperture. The hinges are secured with 316 stainless steel nuts, bolts and washers.

This cabinet is usually fitted with between 1 and three shelves depending on what is being stored inside.

The interlocking doors feature a Stainless steel L handle to pull the door open to guarantee fast access even when wearing gloves.

Standard specification:

Dimensions : Height x width x depth: 2025 x 1395 x 600mm
(79.7 x 54.9 x 23.6")

Aperture: 1739H x 1160W mm (68.5 x 45.7")

Internal depth: 527mm (20.7")

Weight : 60Kg (132Lb)

Material specification:

Colour: Orange RAL 2009

Material: Lloyds approved composites with UV stabilised gelcoat

Hinges: 316 Stainless steel

Handle: 316 stainless steel L handle with three way locking

Seal: EPDM

Optional Extras:

Other RAL colours

Class 1 fire retardant composites

Lockable L handle

Vents

Heating and insulation
